a) Management Interim Report of AD Plastik Group and the Company AD Plastik Inc. Solin for the period 01.01.-31.12.2013

Financial results of the Group for the period 01.01.-31.12.2013

Indicator	01.01.- 31.12.2012.	01.01.- 31.12.2013.	Rate of change %
Sales revenue (thousands of HRK)	756.035	816.030	7,94 %
Net profit (thousands of HRK)	56.017	27.140	-51,55%

In 2013 AD Plastik Group achieved a sales revenue growth of 7,94%, compared to the previous year. The reporting year for AD Plastik Group was marked by a high number of developmental projects. Therefore, the revenue growth in this year is mostly related to the increase of revenues from development and manufacture of tools and to the increase of sales of products on new locations.

The most important reasons for the decrease of profitability in 2013 are:

- A lower level of loading than the planned one for the plants in Croatia, and new plants in Kaluga and Mladenovac due to the prolongation of the start of production of new vehicles
- The fall in the exchange rate of the Russian Ruble against the EUR

In order to reduce further impact of exchange rate volatility of Russian Ruble against the EUR at the end of the previous year, we increased the hedging of Russian Ruble through forward contracts.

With changes of selling prices of products in accordance with foreign exchange rate and with localization of material suppliers we will further reduce the currency risk.

With the aim of achieving a clearer picture on business of AD Plastik Group, we created an abbreviated consolidated profit and loss account of AD Plastik Group with the consolidated profit and loss account of affiliated companies Euro APS, Romania and FADP, Russia for the 2012 and 2013, in which AD Plastik Group has 50%, that is 40% of ownership.

Below we are presenting the most important events in 2013 per companies of AD Plastik Group.

AD Plastik Inc., Solin

In the Parent company a larger part of activities was completed related to the preparations for the Edison project in Croatia. A serial production of the vehicle Renault „Twingo“ is planned in April of this year. The assembly of the new painting line is completed and the trial productions began. Expansion of the building for the injection molding area in Zagreb has also been finalized. Likewise, the expansion of injection molding capacity continued for the plants in Zagreb and Solin. We agreed additional quantities of interior products for VW vehicles, with the planned start of serial production in the third quarter of this year. The expected revenue from this project is higher than 3 milion EUR during its complete duration. Likewise, we agreed business deal for exteriors for redesigned vehicle Renault Clio. The expected revenue from this deal is higher than 5 milion EUR during its complete duration.

On the basis of realized investments in Croatia for the project Edison and according to the solution of Ministry of Economy, it is planned to use the reduced rates of income tax (from 20% to 0%), also in 2013.

At the General Assembly in July a decision on dividend payment was made in total amount of 8,00 HRK per share.

ADP Mladenovac, Serbia

We finished industrialization of the new project of headliners for Edison. Expected start of production is April of this year.

In the reporting period we agreed business deal with Fiat for the production of grab handles for the buyer's plants in Italy and Serbia. By the end of the 2013 we decided to install injection moulding technology in this plant.

With Renault Group we agreed business deal for the production of grab handles, and the start of serial production is planned in the third quarter of 2014. The expected revenue from this deal is higher than 4 milion EUR during the complete duration of this project.

ADP Kaluga, Russia

In the third quarter in Kaluga started the production in technology of injection moulding. We started production in the blow molding technology within the project X52 i H79. The production for the technology of sun-visors started in September and deliveries for the project X52 began.

In the reporting period with Renault Russia we agreed business deal for production of parts for interior and exterior for H79 Ph 2 (Duster) with the deliveries in 2015. The expected revenue from this deal is higher than 25 milion EUR during the complete duration of this project.

ZAO PHR (ADP Togliatti, Russia)

In reporting period we completed the activities for the realization of the project X52, and the serial production started.

In the following period this project should ensure a stable revenue growth for this plant. The organizational changes are in progress in order to optimize the costs of the company, incurred due to the production volume growth and the acceptance of large number of new projects.

It was made a new deal for the production of interior positions for the vehicle Chevrolet Niva. The expected revenue from this deal amounts to about 10 milion EUR during the complete duration of this project.

EURO APS, Romania

The achieved realization of this year is higher than the planned one, as the result of the good sales of the model Dacia Sandero. New models of Dacia are well accepted on the market, so the full capacity of this plant has been achieved also in this year.

In the reporting period it was paid the correspondent part of the dividend, related to profit of 2012 in the amount of 26,93 milion HRK.

FADP Luga, Russia

The achieved sales realization in 2013 is lower than the planned one due to the reduced production of Ford vehicles in Russia. In the second quarter FADP was nominated for the production of interior parts for the following Nissan vehicles (P32R (the new xtrail) & P32S (the new Qashqai) with the start of serial production in 2014 and 2015.
